

Lizy Paul

NSC Chair

5G.MIL Program Director
Lockheed Martin Corporation

Lizy Paul is the Elected Chair of the National Spectrum Consortium.

Lizy is currently the Director of 5G.MIL™ Programs for Lockheed Martin Corporation. In this role, Lizy helps lead the strategy, planning, and execution of the enterprise 5G.MIL™ IR&D portfolio; organize and facilitate external advisory group reviews and standards body engagements; and support technology transition to business areas for programs and new business capture.

Prior to her current position with Lockheed Martin, she was the Director of Technical Strategy for the Defense Communications, Datalinks and Networking Solutions capabilities and products at Collins Aerospace, a Raytheon Company.

Paul has a Master of Science degree in Electrical Engineering from Johns Hopkins University, Maryland, United States and an Executive MBA from University of Iowa, United States. She holds 16 patents in the area of RF Communications and Networking technologies.

Paul has more than 25 years of experience in business strategy, technology and Innovation in the defense and commercial wireless Industries.

Paul has held various leadership positions at Collins Aerospace including, Director, Asia Pacific Strategy, Technical Marketing Director, and Engineering Manager at the Advanced Technology Center. She has also held Engineering leadership and research positions at Motorola, Ericsson and Hughes Network Systems.
