

**Vice Admiral Joe Dyer USN (Ret.)  
Chief Strategy Officer**

- Chief Strategist, The Strategy Group
- Chair, NASA Aerospace Safety Advisory Panel
- Former Chief Strategy Officer and Chief Operating Officer, iRobot Corporation
- Former Commander, Naval Air Systems Command

Vice Admiral (Retired) Joseph W. Dyer is currently an independent consultant in the technology and defense markets.

From 2003 through late 2012, he was an executive at iRobot Corporation serving consecutively as the President of the Government and Industrial Division, Corporate Chief Operating Officer, and as the company's Chief Strategy Officer.

He served as Commander of the Naval Air Systems Command, where he was responsible for research, development, test and evaluation, engineering and logistics for naval aircraft, uav's, air launched weapons and sensors, from June 2000 until his retirement in July 2003. He previously was assigned as Commander of the Naval Air Warfare Center Aircraft Division at Patuxent River in July 1997 and a month later assumed additional responsibilities as the Assistant Commander for Research and Engineering of the Naval Air Systems Command.

From January 1994 to April 1997, Admiral Dyer served as F/A-18 Program Manager, leading engineering and manufacturing development efforts on the new F/A-18E/F, continued production and fleet support of the F/A-18C/D, and all F/A-18 foreign military sales. Under his leadership, the F/A-18 program won the Department of Defense Acquisition Excellence Award and the Order of Daedalian. Earlier in his career, he served as Navy's Chief Test Pilot.

Vice Admiral Dyer is a graduate of North Carolina State University with a B.S. in chemical engineering and the Naval Postgraduate School, Monterey, California with an M.S. in financial management. He is an elected Fellow in the National Academy of Public Administration and the Society of Experimental Test Pilots.
